ENROLL TODAY

SAVE ENERGY & MONEY TOMORROW

New – BOC Level II online via Zoom

BEGINS OCTOBER 14, 2020

Building Operator Certification (BOC®) helps building engineers, maintenance supervisors and others in the skilled trades advance their skills and careers in energy efficient operation of commercial buildings. Since 1996 BOC has equipped building operators with the know-how to reduce building-related energy consumption and occupant comfort complaints.

BOC Level II prepares operators to evaluate the operational performance of their buildings with a focus on improving energy efficiency. Participants in the course will learn how to collect and analyze building data in order to prepare a building walk-through plan to identify opportunities to improve performance. Completion of Level II requires a time commitment of 61 hours which includes six classes, work-site projects, and open-book tests.

New – BOC Level II online via Zoom

BOC LEVEL II SCHEDULE

ONLINE ORIENTATION (10am-11am)	10/5/20
<i>All classes are held online from 8:30am to 12:30pm.</i>
